Applicants Request A Determination That Page One Was Received by the PTO

On June 5, 2000, Applicants filed U.S. Patent Application Serial No. 09/586,742 (the “‘742 application”) with the PTO. Attachment A is a copy of page one of the specification that was included as part of the ‘742 application.

Attachment B is a copy of the return postcard indicating that the PTO received the ‘742 application on June 5, 2000. In particular, the return postcard indicates that the PTO received a “Patent Application (72 pages).” The ‘742 application does in fact have 72 pages, including page one. Thus, the postcard receipt itemizes and properly identifies the papers which were filed and serves as prima facie evidence of receipt in the PTO of the items listed thereon on the date stamped thereon by the PTO. MPEP 503.

Attachment C is a copy of the Certificate of Mailing by Express Mail and the Utility Patent Application Transmittal that were submitted along with the ‘742 application. The Transmittal likewise indicates that a “Specification having 72 pages” (*i.e.*, including page one) was included with the ‘742 application.

In view of the above, Applicants respectfully request a determination that page one of the specification was received by the PTO on June 5, 2000 as part of the application papers. The Commissioner is hereby authorized to charge the petition fee of \$130 under 37 CFR 1.17(i) to Deposit Account No. **50-0271**.

Alternative Petition Under 37 CFR 1.182

In the event that such a determination is not made, Applicants respectfully petition under 37 CFR 1.182 to have the date of this Petition (August 22, 2000), which includes a copy of page one of the specification, be the filing date of the ‘742 application. The Commissioner is hereby authorized to charge the petition fee of \$130 under 37 CFR 1.17(h) to Deposit Account No. **50-0271**. Attachment D is a Supplemental Declaration in compliance with 37 CFR 1.63 and 1.64 referring to page one of the specification.
